

# EMERALD RISK TRANSFER (EMERALD)

Emerald is the largest underwriter of corporate property and affiliated engineering risks in South Africa, and underwrites businesses throughout Africa.

The Emerald team's solution-orientated approach to creating sustainable, quality products is part of our culture. This flexible approach, coupled with the support of our excellent reinsurer panel, allows us to be truly innovative.

## WHY INSURE WITH EMERALD?

- We are able to write above R400 million capacity based on MPL.
- We have access to additional capacity through innovative facultative reinsurance solutions for large capacity accounts.
- We are protected by a minimum 'A'-rated international treaty reinsurance programme.
- We have a significant existing portfolio throughout the African continent.

## OUR RANGE OF INSURANCE SOLUTIONS PROVIDE COVER FOR:

- Multinational companies
- Petrochemical businesses
- Mining and mining processing, including smelters and furnaces
- State and local government entities with or without power-generating plants
- Large retail groups
- Large property portfolios
- Leisure and tourism – hotels and lodge groups

- Manufacturing, industrial and engineering works
- Rolling stock and passenger rail
- Large agricultural processing
- Infrastructure – airports, roads and ports
- Hospitals and clinic groups
- Telecommunications

## WE ALSO OFFER TECHNICAL SERVICES WHICH INCLUDE:

- Technical underwriting
- Reinsurance placements
- Risk management and risk engineering
- Risk surveys
- Bespoke policy wordings for African mining and non-mining risks
- Claims and related professional services
